

(To be Typed on City/Applicant Letterhead)

Certification for “Cost and Effectiveness”  
KWPCRF Project No. C20 xxxx 01  
(Today’s Date)

The Water Resources Reform and Development Act (WRRDA) includes Section 602(B)(13) applicable to the state Clean Water SRF programs – the Kansas Water Pollution Control Revolving Fund (KWPCRF). This requires the following certification regarding “cost and effectiveness” of the design for the wastewater collection and treatment system as a condition to receive funding from the KWPCRF.

“The applicant has studied and evaluated the cost and effectiveness of the processes, materials, techniques, and technologies for carrying out the proposed project or activity funded by this KWPCRF low interest loan, and has selected, to the maximum extent practicable, the processes, materials, techniques, and technologies that maximize the conservation and efficient use of water, considered the potential reuse of treated wastewater effluent, and considered the recapture of water for reuse, and that maximize energy conservation, taking into account construction costs, operation and maintenance costs, and replacement costs. Reference the attached checklist(s).”
